

18th May 2020

VIRTUAL SCHOOL

Slight changes to the way we work

Key Points:

- Existing timetable remains
- Subjects will set work by 10am
- Dates for completion will vary between subjects and activities – these are a guideline and shouldn't be stressed over.

Advantages of the changes

We will still follow the existing timetable/routines

However, all work for the day will be posted by 10am.

This will help families plan for the day ahead; this is particularly important for families sharing equipment like laptops.

We understand that there are many difficulties associated with virtual school. There is no pressure to complete all the work set. Virtual school is about our students doing the best they can in their given circumstances.
